

Senior School Subject and Pathways Expo

Last Thursday evening, the College welcomed over 400 family members to the Subject and Pathways Expo. A number of presentations were held on the night to assist families with subject and pathway decisions.

The presentations, as well as the Year 10 and Senior Handbook, are available on the SJC Careers Web Page, under Senior School – SJC Subject and Pathways Expo. To access the direct page please click on the following link: <https://www.sjccareers.com/vce-info/sjc-subject-and-pathways-expo>

Dates to Diarise in Term 3

- **University / TAFE Open Days 2022** – throughout August
- **Year 12 VTAC timely applications** – throughout August and September
- **VTAC SEAS and Scholarship applications** – throughout August and September

MONASH University

News from Monash University

➤ Upcoming Monash Information Evenings

We know that choosing a university is a big decision, especially if you don't live in Melbourne. Monash Information Evenings are the perfect opportunity to have your questions answered on everything you wanted to know about undergraduate study at Monash.

| | | |
|-------------------------------------|---------------------------------------|-------------------------------|
| Monash Information Evening: Health | Tuesday 19 July, 6.30pm – 8.00pm | Register here |
| Monash Information Evening: HASS | Tuesday 26 July, 6.30pm – 8.00pm | Register here |
| Monash Information Evening: General | Thursday 25 August, 6.30pm – 8.00pm** | Register here |

Note: ZOOM meeting**

➤ Direct Entry to Medicine

For 2023 entry to medicine, the **indicative UCAT score will be 2900** to be considered for December interviews. Selection for January interviews will be based on a combination of UCAT and ATAR (aggregate) results.

Find out more about all admission requirements at [Direct Entry to Medicine](#).

UNIVERSITY **Early Offer Program**

*Through RMIT's **Early Offer program**, a Year 12 student's life experience outside the classroom can count towards their dream associate or bachelor's degree, allowing them to be accepted on a lower ATAR and taking some of the pressure off their final year at high school. It's part of RMIT's commitment to diversity and equitable learning, and students could receive a conditional university offer in September.*

Open to Australian and permanent resident students who have experience being a leader, working with different people, showcasing their creativity, or making an impact in the technical world. Students are required to [apply here](#) and can apply for one course.

The application process requires students to -

1. Address two of four of the following categories:
 - Analytical and Critical Thinking
 - Leadership
 - Communication
 - Creative Thinking and Innovation
 - Interpersonal Skills and Teamwork
2. Write a 200-word statement of their experience for each of the two chosen categories
3. Supply supporting documentation verifying their involvement in the two categories they have written about, e.g., a completion certificate, a reference letter, awards.

Applications are open and close 18 September 2022. Successful applicants will be notified of their conditional offer by the 30 September 2022. The conditional offer will become unconditional should students complete Year 12, meet the course prerequisites, and attain the ATAR required. **Students must also make a VTAC application.**

Browse the following link to find out which courses are participating in the program, the required ATARs, and also a number of useful FAQs - [Early Offer Program](#).

Entry Options for Year 12 Students at UWA

Ready to begin your career journey at the University of Western Australia? If you are currently in Year 12, our Early Offers pathway means you can tick your application off your list early. So, it's one less thing you need to think about, and you can spend that time focusing on your final exams.

UWA has three entry options:

1. Predicted ATAR Entry

UWA will be providing offers based on a student's predicted ATAR score using UWA's calculator and will be based on the final Year 11 or mid-Year 12 results when available.

Students must have a minimum predicted ATAR of 80 and meet the entry requirements for their nominated course to receive an offer.

Should the predicted ATAR not meet the early offer entry requirements for the nominated UWA course, a student will receive a conditional offer – conditional that they satisfy the ATAR requirement for their chosen course through their final Year 12 ATAR.

2. STAT Entry

Students not taking enough ATAR subjects for university entry (or not taking the ATAR at all), can still apply to UWA through a Special Tertiary Admissions Test (STAT).

3. ATAR based entry

Students may opt to apply to UWA the traditional way - using their final Year 12 ATAR to apply for UWA courses.

Find out more at [UWA Early Offers](#).

New Majors in the Bachelor of Arts

Our arts, humanities and social science courses are designed for action. Meaning, you'll not only build your understanding of contemporary society, but also your confidence and distinct skill set to make the difference you want to see. As mentioned in an earlier newsletter, Swinburne is reimagining its Arts degree, and offering a range of innovative majors. These include –

- [Climate and Social Justice](#) - the study of climate and social justice is multi-disciplinary and includes sociology, philosophy, history, Indigenous studies, and politics. In this major, students get to expand their knowledge of key concepts in conflict resolution, environmental justice, and social justice, and be ready to make their mark on a greener, more equitable future.
- [Perspectives on Globalisation](#) - the study of perspectives on globalisation is multi-disciplinary and includes sociology, politics, history, and Indigenous studies. In this major, students get to delve into the social, cultural, and political routes that have unfolded in the digital age. Students will get to develop essential cultural competency skills and think critically about how the creative possibilities generated by globalisation can be fostered while the threats it poses are mitigated.
- [Ethics and Technology](#) - the study of ethics and technology is multi-disciplinary and includes philosophy, sociology, and politics. In this major, students will examine the

many ethical issues around privacy and surveillance, human rights, and equity. Students will also develop strong verbal and written communication skills to create policy needed to protect human rights, social equity, and security now and in the future.

- [Politics, Power, and Technology](#) - the study of politics, power and technology is multi-disciplinary and includes politics, philosophy, and history. Students will develop a deep understanding of key political concepts such as power, democracy, and security in this major. They will probe and question political structures and how new media technology has created fresh opportunities for democratic mobilisation and participation at local, national, and global levels, while opening up new ways to corrupt democratic processes. Students will also analyse how the use and misuse of technology influences security, privacy, freedom and human rights in traditional political processes and institutions.
- [Screen Studies and Popular Culture](#) - from smart phones, to streaming services and VR, in this innovative major students will develop a sound understanding of the ways entertainment and screen technology interact. Students will chart the history of screen technologies and use their creativity and initiative to anticipate what the future of entertainment will be. Students will also create next generation entertainment projects in real world industry collaborations with screen industry experts.
- [Professional and Creative Writing](#) – with an emphasis on new forms of publishing, this major will aid students in learning how to harness the power of words to tell compelling stories to inform and inspire the world. Students will learn to understand the traditional and latest practice-led methods to hone your writing practise. They will also explore how the online world has given power and voice to stories of diversity.

Professional Business Cadetships

Open to current Year 12 students, Professional Cadetships provide unparalleled opportunities. As a Cadet, you combine study at the university of your choice with paid work at a leading company.

Under this program, cadets are placed in Global Research at **UBS**, a top-ranking investment bank. As already mentioned, cadets combine paid work with study at the university of their choice in Melbourne, enabling them to launch their career from the start of university rather than waiting until graduation.

To gain a better idea of the cadet experience, students might like to check out the following video: [Professional Business Cadetships](#)

Business Cadetship applications are made online to Professional Cadetships Australia: [Professional Cadets](#). The link to the application is - [Business Cadetship Application](#).

Applications are open and close on Wednesday 17 August 2022.

Principal's Recommendation Scheme at CQU

At CQUniversity we believe senior schooling results are important, but we also believe that other factors such as motivation, talent, and passion can lead to student success at university. So, we have introduced a pilot program, the Principal's Recommendation Scheme, that allows Year 12 students to apply to a CQUniversity course based on the recommendation of their high school Principal rather than ATAR.

CQUniversity's Principal's Recommendation Scheme provides an alternate entry pathway to CQUniversity courses that is based on the recommendation of a students' high school Principal and not reliant on whether they have received an ATAR.

Applications are open and close on 1 December 2022. Find out more at [Principal's Recommendation Scheme at CQU](#).

Schindler Apprentice Open Night

When you join Schindler, you become part of a global family that is one of the world's leading providers of elevators, escalators, and moving walks.

With 6 locations across Australia and a team of over 1,200 people, there is so much to experience as an **Apprentice at Schindler**. Through a world-class program, over four years apprentices take on regular structured in-house training, gain a formal electrical trade qualification, and learn from a network of the industry's leading experts.

Students keen on finding out more are invited to attend an **Open Night** which will cover topics including *what an apprenticeship at Schindler offers, life after the apprenticeship, an opportunity to meet with current apprentices, etc.?*

Date: Tuesday 9 August 2022
Time: 6.00pm – 8.00pm
Location: 1/48 Wirraway Drive in Port Melbourne

Register for the Open Night [here](#).

Note: Students who are unable to attend the Open Night, might like to register for a **webinar** instead.

Date: Thursday 11 August 2022
Time: 6.00pm – 8.00pm

Register for the webinar [here](#).

Paramedicine Degrees in Victoria in 2022

The Good Universities Guide states that *paramedics provide pre-hospital emergency care, treatment, and specialised transport for patients* - [Good Universities Guide - Paramedic](#)

*Working as an ambulance paramedic means that no two days are ever the same. What a paramedic does can be as varied as restarting a patient's heart down to helping solve social welfare issues. Ambulance paramedics are called when people feel they have no other options and are suffering what feels like an emergency to them. An interesting fact to remember when applying to become a paramedic is that the majority of the workload is not lights and sirens driving to save a patient's life. **This job is more about helping people in their time of need as opposed to being a hero.***

Visit [Ambulance Victoria - Types of Paramedics](#) to find out more.

The following Victorian universities offer Paramedicine undergraduate degrees:

| INSTITUTION | COURSE | VCE REQUIREMENTS | ATAR 2022 |
|--|---|--|--|
| Australian Catholic University (M) – Melbourne (B) – Ballarat | Paramedicine | Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL. | 95.05 (M) |
| | Nursing/Paramedicine | Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL. | 91.25 (B) |
| La Trobe University (AW) – Albury Wodonga (Be) – Bendigo | Paramedic Practice with Honours | Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4: a study score of at least 20 in two of Biology, Chemistry, Health And Human Development, any Mathematics, Physical Education, Physics or Psychology. | 77.95 (Be) 75.20 (AW) |
| Monash University (P) – Peninsula | Paramedicine | Units 3 and 4: a study score of at least 30 in English (EAL) or at least 25 in English other than EAL; Units 3 and 4: a study score of at least 25 in Maths: Further Mathematics or at least 22 in one of Maths: Mathematical Methods or Maths: Specialist Mathematics. | 87.95 (P) |
| Victoria University (St. A) – St. Albans | Paramedicine | Units 3 and 4: a study score of at least 25 in English (EAL) or at least 20 in English other than EAL. | 86.60 (St. A) |

Visit [VTAC](#) to find out more about these courses.

Snapshot of the University of Adelaide in 2022

- The University of Adelaide is amongst the world's top 1% of universities and the top university in South Australia – [World Rankings](#)

Navy Fast-Track Career Opportunities

Students or job seekers looking to accelerate their career and start training in the next 3-6 months could fast-track their application by applying for a priority role. No experience is required, all skills will be gained with paid on-the-job training. For any questions about job roles and life in the Navy please contact navyjobs@dfrc.com.au.

Priority Roles

[Electronics Technician](#) Maintain advanced weapons systems, radar systems, surveillance equipment and more, onboard ships or submarines.

[Marine Technician](#) Maintain and operate engineering machinery and systems, ensuring the ships or submarines remain fully operational and mission capable.

[Communication Networks Operator](#) Be the communications link exchanging sensitive and top-secret information for Navy operations and missions, onboard ships or submarines.

[Weapons and Sensor Operator](#) Use sensors, radars and combat data systems to provide tactical recommendations about potential threats.

Totally Travel

Looking for a meaningful addition to your gap year?

[Totally Travel](#) provides overseas volunteering experiences for adventure seekers. From animal interactions to wildlife research in the field, from an adventure tour to a working holiday, from teaching English to others to learning about yourself, from a 2 week vacation with a difference to an entire gap year, we'll help you plan your trip-of-a-lifetime.

Promoting responsible and ethical travel is a core value of Totally Travel. Our wildlife programs all have animal welfare at the absolute forefront of what they do. Our elephant programs all stand against elephant riding and we don't promote cub petting.

Here's 5 example Totally Travel programs offered in Asia. No experience required, airport pickups, accommodation and meals included. Start dates every weekend, 1 or 2 week programs.

[Bali Turtle Conservation](#)

[Helping Kids in Vietnam](#)

100 Jobs of the Future

What will work look like in the future?

If you are entering the workforce now you may have many jobs and even multiple careers over a lifetime! The future of work will involve people collaborating effectively with machines to do what neither can do alone. What jobs will be created in the future that don't currently exist? How can we prepare for future jobs? What skills will be needed?

100 Jobs of the Future is a research project that aims to look at the future of work in an increasingly technologically-driven society.

We investigated:

- major trends and issues associated with major drivers of change – technological disruption, scientific innovation, climate change, globalisation, and population changes;
- the changes in work that will occur in key industries and domains;
- the jobs that will emerge in the future as a result of these changes; and
- the skills and interests that are needed for these jobs.

[The report can be found here.](#)

Want to see the 100 Jobs of the Future?
