Bendigo Sunday 27 August

Swinburne University

Hawthorn Sunday 30 July

The University of Melbourne

Parkville Sunday 20 August

WHAT ARE OPEN DAYS?

These events provide an amazing opportunity for prospective students and their families to learn about courses, accommodation, student services, pathways, and student groups and societies.

WHY SHOULD I ATTEND OPEN DAYS?

Open Days are essential! Your future course and accommodation will be a huge financial investment. It makes sense to compare the institutions that have the course/s you're interested in.

Open Days will give you an opportunity to compare costs, the vibe of the campus, accommodation options, opportunities their students have access to such as global exchange, entry requirements and pathways into the courses you're interested in, and the 'point of difference' for each institute.

Most importantly, you will be able to compare institutions and work out your university and course preferences.

Open Day Dates

Follow the steps below to get ready for the next open days.

Step 1

Register for the open day. Click the registration link on the open day website and fill out the online form.

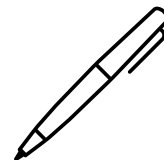

Step 2

Create a personalised planner on the website. Select the information sessions, displays, talks and tours you're interested in.

Step 3

Download a university campus map and mark on it the rooms you would like to visit on the day.

Step 4

Organise a note pad and a list of questions you would like to ask.

Friday 17 November

EXAMPLES OF QUESTIONS TO ASK

What makes the courses I'm interested in different from similar courses at other institutes?

Tell me about the lecturers in the courses I'm interested in. What do they specialise in and what projects or research are they working on?

Can I do research or internships while studying here? How does the university help students find these opportunities?

How many students are there for each teacher? Are the teachers easy to reach outside of class if I need help or advice?

What kind of help does the university offer for finding jobs or internships after graduation?

Can you tell me how successful graduates are in getting jobs in the field I want to study?

Can I go to another country to study for a while? How does the university help students who want to study abroad?

What kind of things can I use on campus, like libraries, labs, computers, or special equipment?

How does the university help students with things like choosing classes, getting counselling, or getting help if I have a disability?

Are there clubs or groups for things I'm interested in?

What kinds of activities can I do outside of class?

What's the vibe like on campus? Are there any fun events, traditions, or things that make this university special?
