- Family violence has a devastating impact on our community and affects people from all walks of life.
- The Royal Commission into family violence recommended Respectful Relationships be introduced to all schools to change attitudes and prevent the prevalence of family violence in future generations.
- Respectful Relationships is an initiative to help young Victorians deal with a range of challenges they may face and covers topics including being respectful, resilient and engaged at school and confident in themselves.
- We take a whole school approach - examining our school's practices and policies to build a culture of respect and equality.
  - The St Joseph's College Respectful Relationships team meet collectively each term to explore ways we empower student voice, agency and participation with initiatives that bring about better awareness of how respectful relationships are the best relationships.
